

### 'Here to Help' Programme.

Sutton Housing Partnership are currently working in partnership with British Gas to deliver a new energy saving initiative. This initiative has been developed to improve the level of insulation for homes in your area.

- Free insulation to keep your home warmer and help you reduce your energy bills (such as loft insulation or cavity wall insulation)
- Ways to increase your income (for example, a free benefits review where applicable)
- Safety and security products
- Advice and help from 'here to HELP' charity partners

This work is funded by Sutton Housing Partnership and British Gas, this is free of charge to you.

The company surveying properties for British Gas are called Eaga; all surveyors will carry and show you identification.

After your completed survey, if it is agreed insulation works are required, a report is sent to Sutton Housing Partnership for authorisation; works normally commence in approximately three weeks.

If you would like more information about the 'here to HELP' survey and installation, please call **0800 107 0030** (Lines are open 9.00 am – 5.00 pm Monday to Friday.)
